SUMMARY

Final year Full Stack Developer and Computer Science student with expertise in **Java, JavaScript, React, MongoDB, MySQL, and Firebase**. Proven record of building and deploying **responsive web applications** and **secure authentication systems**. Skilled in, **REST API integration**, and **performance optimization**, with 100+ problems solved on **LeetCode** to strengthen **data structures and algorithms** skills.

EDUCATION

B.Tech – Computer Science & Engineering (Lateral Entry)

Dream Institute of Technology (MAKAUT), Kolkata —

2023–2026

CGPA (upto 6th Sem): **7.5+**

Diploma – Computer Science & Technology

Murarai Government Polytechnic (WBSCTVESD/AICTE), Birbhum —

2020–2023

Percentage: **82.8%** | OGPA: **8.7**

PROJECTS

College Website – JavaScript, PHP, MySQL, HTML, CSS

- Designed and deployed a **fully responsive college website** with separate student/admin dashboards.
- Implemented **secure authentication** and **CRUD functionality** for dynamic content management.
- Reduced page load time by **~25%** through optimized queries and front-end assets.

Health Management App – Flutter, Dart, Firebase

- Built a cross-platform app with **step tracking, water reminders, to-do lists, and BMI/TBW calculators**.
- Integrated **Firebase Authentication** for secure user login.
- Increased daily active user engagement by **~30%** via personalized reminders and feedback features.

INTERNSHIPS

AI-ML Virtual Internship – Applied machine learning algorithms to small-scale datasets for prediction tasks.

Android Developer Virtual Internship – Developed basic Android apps with Firebase backend integration.

Python Internship (Best Book Recommendation) – Created a recommendation system using Python libraries.

TECHNICAL SKILLS

Languages: Java, JavaScript, PHP

Frameworks/Libraries: React, Node.js

Databases: MongoDB, MySQL

Web: HTML, CSS

Tools: Git, VS Code, Canva,

Core CS: Data Structures & Algorithms, DBMS, OS, Computer Networks

ACHIEVEMENTS

Solved **100+ coding problems** on [Leet Code](#), focusing on **data structures and algorithms**.

SOFT SKILLS

Collaboration & Teamwork | Analytical Thinking | Clear Communication | Attention to Detail | Fast Learner
